

WAC 197-11-800

Categorical exemptions.

The proposed actions contained in Part Nine are categorically exempt from threshold determination and EIS requirements, subject to the rules and limitations on categorical exemptions contained in WAC 197-11-305.

Note: The statutory exemptions contained in chapter 43.21C RCW are not included in Part Nine. Chapter 43.21C RCW should be reviewed in determining whether a proposed action not listed as categorically exempt in Part Nine is exempt by statute from threshold determination and EIS requirements.

(1) Minor new construction - Flexible thresholds.

(a) The exemptions in this subsection apply to all licenses required to undertake the construction in question. To be exempt under this subsection, the project must be equal to or smaller than the exempt level. For a specific proposal, the exempt level in (b) of this subsection shall control, unless the city/county in which the project is located establishes an exempt level under (c) of this subsection. If the proposal is located in more than one city/county, the lower of the agencies' adopted levels shall control, regardless of which agency is the lead agency. The exemptions in this subsection apply except when the project:

- (i) Is undertaken wholly or partly on lands covered by water;
- (ii) Requires a license governing discharges to water that is not exempt under RCW 43.21C.0383;
- (iii) Requires a license governing emissions to air that is not exempt under RCW 43.21C.0381 or WAC 197-11-800 (7) or (8); or

(iv) Requires a land use decision that is not exempt under WAC 197-11-800(6).

(b) The following types of construction shall be exempt:

- (i) The construction or location of four detached single family residential units.
- (ii) The construction or location of four multifamily residential units.
- (iii) The construction of a barn, loafing shed, farm equipment storage building, produce storage or packing structure, or similar agricultural structure, covering 10,000 square feet, and to be used only by the property owner or his or her agent in the conduct of farming the property. This exemption shall not apply to feed lots.

(iv) The construction of an office, school, commercial, recreational, service or storage building with 4,000 square feet of gross floor area, and with associated parking facilities designed for twenty automobiles. This exemption includes parking lots for twenty or fewer automobiles not associated with a structure.

(v) Any fill or excavation of 100 cubic yards throughout the total lifetime of the fill or excavation and any excavation, fill or grading necessary for an exempt project in (i), (ii), (iii), or (iv) of this subsection shall be exempt.

(c) Cities, towns or counties may raise the exempt levels up to the maximum specified in (d) of this subsection by implementing ordinance or resolution. Such levels shall be specified in the agency's SEPA procedures (WAC 197-11-904). Separate maximum optional thresholds are established in (d) of this subsection applying to both incorporated areas and unincorporated urban growth areas in fully planning jurisdictions under RCW 36.70A.040; other unincorporated areas in fully planning counties; and jurisdictions in all other counties. Agencies may adopt the maximum level or a level between the minimum and maximum level. An agency may adopt a system of several exempt levels, such as different levels for different geographic areas, and mixed use projects.

At a minimum, the following process shall be met in order to raise the exempt levels.

(i) Documentation that the requirements for environmental analysis, protection and mitigation for impacts to elements of the environment (listed in WAC 197-11-444) have been adequately addressed for the development exempted. The requirements may be addressed in specific adopted development regulations, and applicable state and federal regulations.

(ii) Description in the findings or other appropriate section of the adopting ordinance or resolution of the locally established notice and comment opportunities for the public, affected tribes, and agencies regarding permitting of development projects included in these increased exemption levels.

(iii) Before adopting the ordinance or resolution containing the proposed new exemption levels, the agency shall provide a minimum of sixty days notice to affected tribes, agencies with expertise, affected jurisdictions, the department of ecology, and the public and provide an opportunity for comment.

(iv) The city, town, or county must document how specific adopted development regulations and applicable state and federal laws provide adequate protections for cultural and historic resources when exemption levels are raised. The requirements for notice and opportunity to comment for the public, affected tribes, and agencies in (c)(i) and (ii) of this subsection and the requirements for protection and mitigation in (c)(i) of this subsection must be specifically documented. The local ordinance or resolution shall include, but not be limited to, the following:

- Use of available data and other project review tools regarding known and likely cultural and historic resources, such as inventories and predictive models provided by the Washington department of archaeology and historic preservation, other agencies, and tribal governments.
- Planning and permitting processes that ensure compliance with applicable laws including chapters 27.44, 27.53, 68.50, and 68.60 RCW.
- Local development regulations that include at minimum preproject cultural resource review where warranted, and standard inadvertent discovery language (SIDL) for all projects.

(d) The maximum exemption levels applicable to (c) of this subsection are:
