9	02/01/09	CH2MHill	Sielen Namdar	425.749.6177	Sielen.Namdar@CH2M.com	No. Pages	confirm no set limits on # of pages	City is looking for brief and concise stements responding to the RFQ. No page limits have been set.
10	02/03/09	Blueline Group	Ken Lauzen	425.216.4051x231	klauzen@thebluelinegroup.com	Various	1. Is VE something City w/provide independently or by consultant team? 2. Do we know if any utility dist. projects (water,sewer,other) that needs to be completed @ same time as City's road improvements? 3. Is City looking for consultants to provide architectural component to ideentify this as a Gateway to City? 4. Can we provide additional info as to what funding sources if any have been secured at this point? 5. Is there a page limit or range City is looking for in RFQ? Clarify the project limits regarding the I-5 bridge crossing	If necessary, the city will follow VE procedures established in the LAG manual w/ support from the consultant. Utility coordination will be part of the design process. No specific architectural elements have been identified at this time but may be considered in the future. Funding sources have been identified in the CIP referenced in the RFQ. Refer to #9 regarding page limits. The project ends prior to the bridge.
